Dear Sir:

In our last meeting this week, we were discussing whether the American G.I. Forum, is authorized to carry on Military Funerals or not.

There has been two Military Funerals here so far, and the first one was one of our fellows, speaking that way. Anyway, the American Legion furnished half of the Firing Squad and we furnished the Pall Bearers. On this last one we had, the American Legion never did invited none of us.

The point I am getting at is, looks as if we have to burry our fallen comrades, and they will burry theirs.

As far as I know, there are only three organizations that are authorized to do so.

Slf.

Yours Truly,
