Dear Dr. Garcia:

I have received a memorandum from the Administrator of Farmers Home Administration in Washington, indicating that you may have information about Mexican-Americans from the Corpus Christi area that have been treated unfairly in their dealings with Farmers Home Administration.

In order to give this matter full consideration, I am requesting a member of my State Office Staff, Mr. Arnold H. Paul, Executive Officer, to contact you on Monday, May 13, 1968, for a more detailed discussion of circumstances. I trust that you will give him whatever information that may be helpful for us to resolve any difficulties so far as Farmers Home Administration is concerned.

Sincerely yours,

  
L. J. Cappleman  
State Director
