Dear Dr. Garcia,

It has been said that the English language is deficient when it comes to words for expressing gratitude. I seem to find myself in that predicament as I search for words so that I may truly express our appreciation for the help you gave us last Monday.

You are so kind to take time from your busy practice to come out to King and lecture to our class in Mexican-American Studies. We spent the entire period the following day going over some of the things you talked to us about. Both the students and I admire you very much for collecting these facts and presenting them in such an impressive way.

We, not only, appreciate what you did for us, but what you are doing for our city, state, and nation. We do thank you.

Sincerely yours,

  
Mrs. Dorothy M. Roby, Teacher

P. S. If at any time you should find further information that you could share with us, we would be very grateful to you. I am very anxious to do a good job with this first class of Mexican-American Studies in our school.
