Dr. Hector Garcia, M.D.
1315 Bright
Corpus Christi, Texas

Dear Doctor Garcia:

I know of no one else in the city that might be able to give me some information on scholarships for young Mexican-american boys who will be graduating this coming May. I am told that you, as a civic leader, might be able to give me some agencies whom I can contact in order to obtain a scholarship for needy boys.

We have some fine Mexican-american lads who are graduating from High School and would like to go college; however, the families are not able to afford that type of monies to send the boys for further studies. These boys are in the upper 10% in their class.

I would appreciate any information concerning scholarships for such boys. It would be lamentable not to give these boys a chance for further studies in a college. They are deserving of some help and can be of great help to the Mexican community in the future.

Sincerely yours,

A. F. Derrera, S.J.
