Lillie Lira

Dear Mrs. Lira:

This letter is in regard to your derogatory and defamatory remarks to the general public through the news media regarding the new portable classrooms being built by the Noble W. Walker company. Mr. Walker informs me that he is fearful of losing jobs in this area and throughout the state because of your public remarks about his product.

This letter will serve as notice to you that Mr. Walker intends to file suit against you for any damage he might incur because of such remarks unless you have documented proof of what you are saying.

Respectfully,

Don M. Chrestman
