Dear Dr. Garcia:

In my letter of August 22, 1972, I requested biographical data from you for use in a book we will soon publish, Hispano-American Contributors to American Life, in which you have been chosen to appear. Because the production date is rapidly approaching, it is important that we receive the biographical data as soon as possible. In addition, we would appreciate a recent picture of you for use in the preparation of an illustration.

Sincerely,

Gerald B. Janka
