Dear Mr. Garcia,

Thank you so much for addressing our graduates at the National Honor Society Induction Ceremony at West Geo High School last Friday evening. Your speech could not have been more to the point and I feel sure that not only your words, but your spirit will stand as an inspiration to our too few scholars.

As for myself, I was delighted to meet you. Let is not often in this ta cynical world that one has the pleasure of meeting a genuinely happy scholar. And it seems to me that happiness is the true reward of scholarship. You have renewed my faith in the fading concept of one who is a scholar and a gentleman.

Sincerely,
Rita S. Schuster
