Hector P. Garcia, M.D.
1315 Bright Street
Corpus Christi, Texas 78405

Dear Uncle Hector,

Thank you very much for your letter and words of encouragement on my new practice. My practice is now 2-1/2 weeks old and I am delighted to report that things are going quite well. I am very pleased with this city's need for an obstetrician.

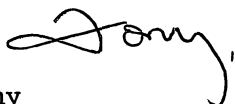

We are settling into Tacoma (which is 30 miles south of Seattle). I am having a good reception, both by the medical community and as I previously mentioned, by the patients. I do miss Corpus Christi and in particular the good Texas weather.

I recently spoke to Roxie and she is doing well in Dallas. Tita is also doing well in New York state.

I do look forward to your visit here. I shall be delighted to show you around the office. I have arranged and decorated the office with many of dad's old and beautiful wood (walnut) furniture. It gives me a great deal of comfort and is very meaningful to use many of his old pieces of equipment and furniture.

Please keep me informed of your activities and let me know how the GI forum is doing.

Your nephew,

Tony
