Dear Hector:

I have just received a transcript of your interview on radio station KUNO in Corpus Christi. As always, you are an able, concerned and generous friend. I am most appreciative of your comments. One sometimes gets to thinking that what he has done is well known and then comes the sudden realization that it takes reminders like yours to bring it to the attention of the people.

B.A. and I have been concerned about the medical problems you have experienced and certainly pleased and comforted to know that they just can't keep down a man with your fighting spirit.

Regards,
