Dear Doctor,

I hope that all is good for you and for your family.

1/19/84

Is still bratiful to remember the time that I have spent with you in Corpus. I'm working at the hospital but studying too for linense to practice in the States. My brother, the older, is in Los Angeles for job, I'd liketo take a trip to California to visit him and you! But I am very involved with the job and is very difficult to be out of the work now.

My family give an helo for you.

Take care

with all my have Dario
