DOGGETT POLICY ADVISORY COUNCIL CHAIRED BY GRONOUSKI, JORDAN

AUSTIN -- Senator Lloyd Doggett, Democratic nominee for the U.S. Senate, today released the membership of his Policy Advisory Council, which is co-chaired by John A. Gronouski, professor and former dean of the LBJ School of Public Affairs, and former Congresswoman Barbara Jordan, holder of the LBJ Centennial Chair in National Policy at the LBJ School.

"The Council includes some of the greatest minds in our state and symbolizes a commitment to excellence that is the hallmark of the Texas approach to public policy," Doggett said. "I truly appreciate the initiative Barbara Jordan and John Gronouski have taken in assembling this group. Among its members are my most trusted friends and advisers on issues of concern to all Texans. They are the people who advise me now and will continue to advise me in the U.S. Senate."

The Doggett Policy Advisory Council includes three former Presidential Cabinet secretaries; four former ambassadors; a Nobel Prize winner; the head of one of the largest companies in America, U.S. Homes; the man who wrote the Social Security and Medicare Acts; farmers, ranchers, bankers, working people and housewives; and people as diverse as a 91-year-old former Suffragette and the vice president of student government at Texas A&M.

"I know Lloyd Doggett and I know his record of public service," said Jordan. "Therefore, without reservation, I enthusiastically support his

candidacy for the United States Senate. Lloyd Doggett will be a Senator of whom Texans can be proud."

Member Wilbur Cohen, former Secretary of the Department of Health, Education and Welfare and drafter of the original Social Security Act of 1935, said that "Texans who are concerned about what kind of Social Security and Medicare system there will be to serve them and their parents can rely on Senator Lloyd Doggett. If Phil Gramm were to win election, on the other hand, Texans can look forward to massive cuts in benefits, cuts in protection and an unraveling of America's commitment to the elderly."

Dr. Steven Weinberg, University of Texas professor and Nobel Prize winner in Physics, pointed out Phil Gramm's support this year for the Dannemeyer substitute federal budget and said "Scientific research needs both intelligence and continuity in the support it receives from government. It can be destroyed by measures like the Dannemeyer budget substitute amendment, which would have recklessly scrapped U.S. high energy physics and thermonuclear energy laboratories, including those here in Texas. Such attacks on scientific research could eventually leave the U.S. with few means of support beyond showing the Grand Canyon to foreign tourists. I do not see how anyone who understands the importance and the needs of science and technology could have voted for the Dannemeyer amendment, and I am encouraged that so few in Congress did."

Member Liz Carpenter, who served on the White House staff of President Lyndon B. Johnson and Lady Bird Johnson and is a current member of the Governor's Commission on the Status of Women, said "Phil Gramm is another Jesse Helms, and we would be apologizing for his backward view for the next six years. Lloyd Doggett is a contemporary Texan who would fight for Texas' place in the future."

POLICY ADVISORY COUNCIL
