

Friday, November 2, 1984 , Dear Friends,

A note to say hello. I have finally learned to operate my Memorywriter typewriter which is superb.

Everyone is very busy due to finalization of construction, decor, etc. for the hotel. Everyone is very courteous because that is also part of our policy. It all looks very exciting & hopefully we can all get together here at the hotel when it opens. It has been quite a transition for me. I don't know if you have any mail for me but it is probably not very important. I am still going to night class twice a week & that has really been keeping me busy & tired. Miguel is rallying for the Democrats in his school & I am proud of the leadership he has begun to demonstrate on his own. (hopefully a chip off the old block. I miss you. My telephone is 887-1000, extension #14. I work for development.
