Dear Dr. Garcia:

Your organization has an interest in assuring that our quality of life is continually improved and that Corpus Christi remains—the place to be. One of the major questions to be answered in 1985 will be the health of our transportation system. To provide the answers to the questions the REgional Transit Authority-Interim Board needs your help.

We are about to begin the development of a service plan for public transportation in the South Texas region. We need to answer questions about:

- where is public transportation needed,
- how often should it operate,
- what days of the week,
- what hours,
- where does it need to come from and where should it go,
- who are the potential users both today and in the future,
- etc., etc.

We feel that the people of this community are the ones to know best what services are needed. We therefore request that a representative of your organization participate in a series of planning meetings.

The first meeting will be January 22 at 7:00 PM in Room 224 of the Convention Center. This meeting will acquaint everyone with the process and give them background on the subject. These individuals will return to your organization with the questions to be answered. Subsequent meetings will be held in February and March to further refine the information. Attendance at the three meetings is vital to the process and they will be held the fourth Tuesday of each month at 7:00 PM at the same location.

Please respond by having your representative attend the January meeting. If there are further questions contact either Tom Niskala or Christie Posey at 882-1722 for further information.

Sincerely,
Pat Eisenhauer
