Dear Dr. Garcia:

Mayor Luther Jones and your friends have been so kind as to invite me to the dedication of the park in your honor on the weekend of November 9-10.

Unfortunately, I have a commitment on that weekend which I cannot break without unfairly inconveniencing others, so I will have to miss the ceremonies.

But be assured that I will be with your friends in spirit in saying this very much deserved "thank you" in recognition of all you have done for the people of Corpus Christi, the State of Texas and your nation.

I think it is fitting that a park be the recognition given your long years of civic work. A park is a living thing--as your good works will live on many, many years in the lives of people who have been helped by your efforts.

Warmest personal regards,

BOB BULLOCK
