DEAR M.D. HECTOR P. GARCIA

We extend our heartfelt gratitude for your generous contribution to La Causa. Because of your support, our efforts on behalf of farm workers bring us closer each day to a fairer share of the American dream for the poorest of our nation's poor.

Your goodwill also makes possible our continuing efforts to halt the reckless spread of agricultural poisons that today are threatening not only the lives and health of farm workers, but also the well-being of consumers everywhere. You can continue to help our efforts by asking all your family and friends to boycott California grapes.

Viva La Causa,

Cesar Chavez
