Dear Dr. Garcia:

It was indeed a pleasure to meet you in Los Angeles last week.

I am deeply moved by the depths of your commitment to the cause of equality for mankind, especially for the Mexican citizens of this country whom you so eloquently and diligently represent. It is always gratifying to know the well-rounded person with the vision to see that success and meaningful survival is a cooperative effort among all peoples.

I certainly look forward with even greater enthusiasm of working with your very fine organization, especially it's capable chairman, Tony Morales.

Best regards.

Sincerely,

cc: Joe Hernandez
