Dear Mr. Castillo:

I appreciate your letter of June 23, explaining the services that MET has to offer the migrants and seasonal farmworkers of our 19-county region. You may be assured that our manpower staff will coordinate with you in order for each of us to offer the best services possible to the needy persons of our mutual area.

I would like to establish a time when we could discuss methods of coordination between the two programs and the number of slots you have proposed for our region in FY '77. Please call me at 915/672-8544 so we can arrange a time and meeting place.

Sincerely,
