Dear Mr. Castillo:

I take this opportunity to acknowledge receipt of your letter dated July 15, 1976, regarding the M.E.T. Program.

Our Texas Employment Commission Office Managers in the Fort Worth District have been encouraged to cooperate with your organization and especially our Migrant Outreach Interviewers should utilize the services made available through your programs.

All field personnel of this district will be made aware of your services and encouraged to refer migrant seasonal farm workers to your organization for possible training to elevate their occupational capabilities, as well as their standard of living.

Local office managers are responsible in this district for coordinating T.E.C. services with other agency services. We are interested in your programs and will work with your personnel to make them successful.

I will contact your office on my next visit to Wichita Falls. Thank you for your letter and the materials attached thereto. It was good information about your services.

Sincerely yours,

A handwritten signature in cursive script that reads "John L. Bruce".
