Mr. Freddie Castillo  
Region VI Coordinator  
Manpower Education and Training  
710 Brook Avenue  
Wichita Falls, Texas 76301

Dear Mr. Castillo:

It was certainly a pleasure to visit with you on Monday, August 9th, as you explained the purposes and operations of MET. Thank you for your time and assistance.

As the representative of the Administrative Entity for the North Texas Planning Region Consortium, I want to reaffirm our cooperation with MET. We both share the same interest and responsibility under CETA and that is to provide job training and development for those individuals who qualify economically and socially. There is always a limit on the amount of funds available to meet these needs. However, through the cooperation and coordination of the two programs, yours' and the Consortium, more people can be served by eliminating any duplication.

Your request to have a representative from MET to serve on the Manpower Advisory Committee is being processed through the Consortium members. I can see no problems along this line.

Again, let me express appreciation to you and your staff for your assistance in making a coordinative program work.

Sincerely,

Edwin B. Daniel  
Executive Director
