

Dr. Hector P. Garcia

Dear Sir,

Twenty three years ago, you brought me into this world.

My parents and I truly admire you for your endless dedication and devotion to our people. Never asking anything in ~~return~~ return, you have spent hours of hard work for the betterment of our people. And you have succeeded, because thanks to you, we, the younger generation, have a better future ahead.

My desire is to become a dentist and follow in your footsteps, helping our people to a brighter tomorrow.

Accept this invitation as a tribute to you, who has open so many doors, so we can walk in.

Sincerely,
Pedro Pérez Jr.
