Dear Hector:

As I mentioned to you in my previous letter, I was in the area of Austin, San Marcos and San Antonio for about three days last week. I was invited to deliver the commencement address at Southwest Texas State on Friday, May 27th. It was a real fine experience and I enjoyed it very much. I had a fine visit with Dr. José San Martín and other friends.

I tried several times to reach you by phone but had no luck. The telephone operator kept telling me that your home phone number (UL-22761) had been disconnected and that you now had an unlisted number. I called the Doctors' Exchange and, unfortunately, the lady was of no help. She said she had no idea where to find you and would give you my message if and when you called.

I returned immediately to Costa Rica and was back at the office last Monday afternoon.

By the way, what is the latest on the possibility of your meeting with President Johnson? I am real anxious to know if you are going to meet with him, or if you have already met with him.

Again, sorry I was unable to make contact with you.

With best personal regards and good wishes,

Sincerely,
