Dear Mr. Flores:

The above named veteran's claim for disability benefits has been reviewed in accordance with Public Law 229, 81st Congress.

Based upon the above law, the apportioned share of the veteran's disability compensation now being paid to you for the use and benefit of the veteran's minor child has been adjusted. You have been authorized payments in the amount of \$7.72 per month from December 1, 1949, \$3.37 per month from July 26, 1951 and your payments will be discontinued effective July 25, 1956.

You are entitled to receive the above amount only so long as you have custody of the veteran's minor child. In the event custody is surrendered to another person, it is your duty to notify this office immediately.

The amount of your payments is based upon a disability rating assigned the veteran's case which rating is subject to change. You will be advised of any change in the veteran's rating which affects the payments now being paid to this veteran for the use and benefit of the child.

Very truly yours,

(Sig.)
