### Bernie:

Pursuant to your telephone request of last week, please find enclosed legislation, regulations and quidelines with respect to the Emergency School Aid Program.

As we discussed over the phone, we should be happy to help you with a proposal, but we need a fairly detailed outline from you, including a specific description of and all information available about the school district for which you want the program, such as population figures, enrollment by racial and ethnic identity, what programs, if any, have been instituted by the school district, etc. Better still, please call me when you receive the material.

Sincer Eduardo Terrones Deputy Director
