Dear Doctor Garcia,

Though I know your phone number from information I don't have a recent address for you. I finally found this after much digging through files.

I wanted to thank you for whatever you did to assist our son Brian in his efforts to get into Baylor's Medical School. We did not make it but was able to enter a new medical school in Toluca - about 45 minutes from Mexico City. Our two daughters will be at the University of the Americas - one in Cholula, one here taking a masters degree.

We have a guest room and bath which is at your disposition should your travels bring you this way.

With kindest regards

Sincerely

Roderic Bonnor
Col. USAF (RET)
