January 18, 1962

Hon. John Fitzgerald Kennedy President of the United States of America The White House Washington, D. C.

Dear Mr. President:

It was my pleasure to be active in the "Viva Kennedy" activities in the Southwest during the last presidential campaign. It was my privelege to serve, with Angier Biddle Duke, as a member of the committee of fifty on "the New Frontier Policy in the Americas." It was a distinct honor to be appointed by you to the National Advisory Council for the Peace Corps, and I was extremely pleased to meet you in person during the first meeting of that Council in the White House.

These antecedents entitle me to no especial consideration, of course. However, I hope that they will be sufficient to encourage you to read the attached article. The article is, in effect, a "statement of principle" of the national political association (PASSO) which is an outgrowth of the "Viva Kennedy" clubs. It seems to me that the contents of the article should be made known to several members of your Cabinet (Labor, HEW, and so on), to the Vice-President, and maybe to others. As in all things, I am at your service in seeing to this.

With enthusiastic endorsement of your program during the past year, I am

Yours, respectfully --

George I. Sanchez
