Dear Doctor Garcia:

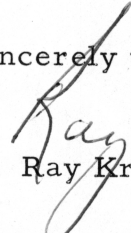

No doubt you are aware that Mrs. Ameta McGloin is retiring as Postmaster sometime during the early summer, and as one would expect, there are a number of applications for the position. There is one applicant in whom I have a particular interest. He is my brother, J. Lester Kring.

If you have no previous commitments, would you do me the favor of writing to Congressman John Young in my brother's behalf? I am enclosing a short biography of Lester which will acquaint you with his qualifications.

In addition to the qualifications enumerated, it seems to me that the fact that he is a career man - has worked diligently over the years to serve the public, should merit consideration in a decision in the matter.

I will appreciate the favor more than if I were an applicant myself. I would also appreciate a copy of your letter so that it may be properly acknowledged.

Sincerely yours,

T. Ray Kring
