Re: Pablo Martinez  
4806 Cosner Dr.  
Corpus Christi, Texas  
Age 59 years.

Dear Sirs:

I would like to highly recommend Mr Martinez for citizenship. He is now 59 years old and has lived 53 years of that span of line in Corpus Christi, Texas.

He may have some difficulty with his reading tests and other factors due to the sickness that he has had.

Mr Martinez is a World War II. Veteran. Soon after his discharge he was found to be a tubercular person. He was hospitalized and treated in the Vet. Adm. Hosp. Kerrville, Texas.

Later Mr Martinez suffered from Hypertension .

Still later Mr Martinez had cataracts and failing vision. He was recommended by the State Commission for the Blind for cataract operation. In 1970 he had cataract operation on one eye since the other is almost blind. He still wears contact and regular glasses.

He is a nice person and so is his family. I would like to respectfully request all assistance that you can give him. Thank You.

  
Dr. Hector P. Garcia.
