Dear Jimmy;

In reference to the Zuniga case let me advise you that an important factor has now come in. According to Mrs. Zuniga, they used to live next door to the house where Zuniga is supposed to have broken in.

Evidently there is the possibility that Zuniga was so drunk and confused that he went to the house without realizing what he was doing.

All of this address business is in East Side Street. So when you call the lawyer be sure and keep this point in mind.

Thank You.

Hector.
