Congressman John Young
Washington, D.C.

Dear Congressman Young:

Mr. Charles C. Foster, 421 Rita Drive, Corpus Christi, Texas, told me that he had written you a letter asking you for summer employment in 1966 on your staff, and that you had written him a nice letter of November 26 to his Austin address telling him that you did not have sufficient unobligated payroll to provide anyone else summer employment.

I am interested in helping Charles get challenging work in Washington as a basis for future career planning, as I feel like he is well qualified and I have personally known and liked Charles and his mother for a number of years.

Since you do not have an opening on your staff, would you do what you can to find an opening with one of the various government departments and agencies that you think Charles would be interested in? He has already mailed in the application for the Civil Service Commission competitive examinations which you advised.

I am attaching a resume of the scholastic record and activities of Charles.

I am sure that you Charles mother who has spent over 15 years working with the American Cancer Society. This young man deserves all the help that we can give him. Although this family is an Anglo family I can truthfully say that they have done as much for the welfare of the poor as anyone else in town. I would personally appreciate your help.

ThankYou. Your friend as ever.

Hector.
