Dr. Hector P. Garcia, 3024 Morgan St.,_ Corpus Christi, Texas.

Dear Doctor:

As a means of introduction I am the sperson who phoned you Thursday afternoon desiring an interview and also the same person waiting in your reception room Saturday evening with the same intentions.

Doctor, I fully realize that you are a very busy man so I'll try to state my business in as brief a way as I possibly can.

I have been following your crusade against the economic oppression of our ethnic group which is, to say the least, an admirable and noble cause and one for which you should be highly commended. However, I have read several articles and editorials to the effect that government jobs are available to qualified spanish speaking Americans but that these positions remain unfilled because of lack of applicants. I have always wondered, Doctor, whether or not this is used more as an excuse than a fact and to satisfy my curiousity I am submitting my own personal qualifications, in brief, so as to start the ball rolling, so to speak, and maybe earn a more personal interview with you in the not too distant future.

I am 38 years old, married and the father of six children. I am a graduate of St. Edwards University in Austin, Texas, class of '50 - B.B.A. I am part owner of Duval Motor Co., a/Ford Dealership in this city and proud of the fact that it is one of the fastest growing businesses of its size in south Texas. Also proud of the fact that we employ 15 persons, pay them well and all are spanish speaking people. If these qualifications are not enough just grant me an interview and I'll really pour it on.

I said I was going to be brief and I'll keep my word so with-Resi CR9 3233

out any further ado, I remain

Yours very truly

Daniel U. Garcia.
