Dr. Hector Garcia

Dear Hector:

As of January 3, I have named Blaine Bull to be Legislative Director in my Washington office and have designated Gay Erwin as the new State Director in Austin. I am pleased to have them serving in these positions. Their knowledge of the special needs of Texas and their understanding of the workings of government will be of great assistance to my efforts to serve the citizens of our state.

As you know, Blaine Bull has been State Director several years and has done an outstanding job with my offices in Texas. Gay Erwin formerly was Director of the Department of Public-Private Sector Initiatives at the Texas Employment Commission. Previously, she was Director of the Office of Community Leadership in the Governor's Office.

I wanted to keep you informed of these recent changes in my Senate staff so that we can be of assistance to you when needed. Please contact these staff members when my office can be of service to you.

Sincerely,

Lloyd Bentsen
