Dear Dr. Garcia:

Thank you for your letter in support of the South Texas educational initiative. I do support your position regarding increased educational opportunities in South Texas.

Senator Truan's S.B. 122 was substituted in committee adding the law school at Texas A&I and making Corpus Christi a four year institution. The law school and the international trade school at Laredo State were not part of the original agreement.

Personally, I empathize with these objectives and would like the same for my district. However, there is no funding at this time, and given the state of our finances these are probably not going to become reality at this time.

Thank you for your attention and I look forward to working with you in the future.

Sincerely,

Eddie Bernice Johnson
