Dear Dr. Garcia,

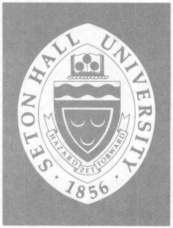

Enclosed please find a Possibilities magazine, Leah's tape I Love my God and Country, a card, and some other information. Please notice on the inside of the cover that Leah has special thanks for some people and that your name is right under Jesus Christ.

Leah is doing very well. She is still making straight "A's" and is doing well in every aspect of school. If you'll look on page 21 of the magazine, you will see her story. She is the only national winner in the children's division of "The Possibility Thinkers' Contest".

We noticed that you are going to have Secretary of Education Lauro Cavazos speak in the early spring. Please allow Leah to sing at that banquet. She is singing better than ever and she is an excellent student. It would be a great honor if you would allow her to sing during this event. She is always available to sing for you and for the American G.I. Forum. Please don't hesitate to ask. We will be checking back with you soon.

Sincerely,

Rev. Rachel Wilken

Dear Dr. García y Familia:

Happy New Year to you & your family and all of
the people at the Clinic like Agnes & Mary.

I hope that you are well & doing fine. I received
the packet of materials on your latest honors and awards.
The mural was a very powerful one. I am glad to see that your
health has allowed you to stay so active.

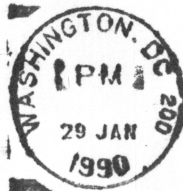

I have been finishing teaching Latin Politics at
Princeton and at Seton Hall. I have been writing papers and
hope to finish another book soon. My health is better. The
family here are all doing well.

Take good care of yourself and stay well. I recall
with great affection and fondness the trips that I made to
Corpus Christi and the time that we spent talking and sharing
ideas. Stay well & give my best to all.

Carísimamente,

David T. Abalos
