

Dear Dr. Garcia:

I trust you agree that the matters I've addressed to TEA should be investigated and that positive recommendations for improvement should be made to the school district if my complaints are found to be valid. Therefore, I request that you please write to TEA and express your support to my request for an investigation. Of course, if you can help out in any other way or have any suggestions, please let me hear from you.

Thank you in behalf of the children of the Beeville Independent School District for your time and support.

Richard Arriola
