Maria

03 Sept 1990

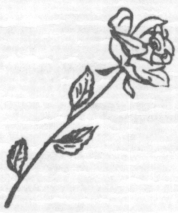
My dear Mr. Saenz:

How honored & felt tonight to have known you, if even for a brief moment of my life.

It was exciting to reminisce through the viewing of your American Dream & all your great works in the struggle to find equality for the Mexican American.

May I add that while viewing your documentary, my phone kept on ringing of people calling me to tell me you were on T.V.

To see you photographed with Presidents after Lyndon B. Johnson did not surprise me, but indeed made me even more proud to have known and worked with such a man as you.



Maria

Thank you, Doctor, for all your hard work. Thank you very much — and for the impression you have made on others.

Respectfully yours,

Maria Segovia del Dorno
