AIR MAIL

DEPOSITO LEGAL B. 34780 - VII

MARY: Remember the gas
is disconnected and you
must turn it on
you have to get the man
or the Air Conditioning
people to turn on the
Pilots. ① In the water
Heater. ② In the Air
Conditioning Unit. There
is also a Pilot light.
It would be dangerous
to connect the gas
without connecting the
Pilots (both).

I am leaving today Tuesday
for Granada + Sevilla. That
Dr Bert works Tuesday
also. I'll see them then.
