Dear Doctor Garcia

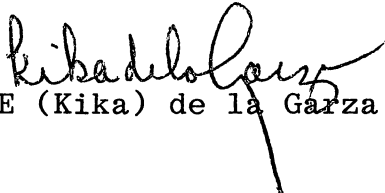

That article in the August issue of **HISPANIC** is marvelous.
I should also add these plaudits are well deserved.

While I realize that these three pages are but a mere
footnote in your history I want to take this opportunity to
congratulate you on your unqualified successes and monumental
achievements over the years.

Because of your efforts all of our lives have been enriched.
You are owed a great debt.

With highest regards, I am

Sincerely

E (Kika) de la Garza, MC
