

10-28-84

Dear Dr. Garcia:

The formal decision for the City Council to permit the Spanish Galleon Artifacts to go to Flour Bluff is next Tuesday, Oct 30, from 8 to 12 a.m., which will be a regular council meeting.

We need support on this. If you cannot personally attend, please pass the word to people that can go that day.

Other reasons for not breaking up the exhibit are:

1. For outside funding or grants there would be a better chance if our museum displayed thoughtful plans for care and ~~recommendations~~ accommodations under first class conditions for an exhibit of such caliber. The future of the museum itself. Displaying good care of this exhibit, our museum would merit consideration for other exhibits of comparable importance.

2. The entire city would benefit from the exhibit at the museum. Any person attracted by the exhibit would naturally want to also enjoy the sun and surf of Padre Island.
