

284 Westwood Dr.

5-15-74

Dear Doctor

This few lines to say hello, And
hoping you are in the best of health,
As the best leaves us here L.L.G.
I am trying to line over the wounds we
got on this last election. In a couple of
days I'll be alright, and ready to blow some
more smoke. From what I concluded
out this election. We have a great big
handy capp. And that is.

We think small and we remain small
And we never going to make till we
change our attitude. We have to think
big to get ~~some~~ where in life.
We are just as good as the next person
All we have to do is change our way
of thinking. The reason I am saying
this, is because we prove it on this
election. I really think the people are
awakening up. We didn't make it. But
came real close. Just over 200 vote
if our people would have come out

just a little more. We would have
change the course of history here
in San Angelo. We have over 18,000
more vote just in the south part
of town, maybe we have put picture
in people minds. That will help us
in our next election. I really think
we did, I have 5 more minutes before
I pick up my little girl from school.

The reason I write is because you
have been the best leader, in the
mexican image that I know
off. You went to the top, and prove
it can be done. Here is some of
the clipping we had in the news
paper. Not counting T.V. Radio sticker
etc, my regards to all the family
And best wishes to you

Yours truly
Pete O. Chapa
