Dear Dr. Garcia:

Words cannot express my true appreciation for the fine support which you gave me in the Governor's race and your wonderful letter of May 9. I regret the result, not on my account alone, but for all of you who worked so hard. I have been comforted by messages like yours, but more especially in my faith that God knows what is best for all of us.

I immediately called Glenn Garrett about the Slaton situation and he advises me that he hopes things have been worked out. You will be hearing from him on this.

Kindest personal regards.

Sincerely your friend
Price Daniel
