---

The August issue of the Coastal Bend Medicine magazine will feature a series of articles about the history of medicine in this area. Part of the issue will review the development of the specialties in the Coastal Bend. Our basic format will include a summary of each specialty and an overview of young Corpus Christi.

We would like to include experiences remembered by physicians who have practiced in the Coastal Bend for at least twenty years. Please review and answer the enclosed questionnaire and feel free to elaborate, ad lib and comment.

Our deadline is June 1, 1986, so please hurry.
