Each of our many Corpus Christi organizations and concerned citizens has in its own way, and in its area of concern, worked for the betterment of the Corpus Christi community. These contributions have been meaningful and significant in the quality of the lives of our citizens.

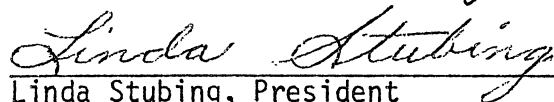

Many of us, however, have recognized the need for the marshalling of all our resources as Corpus Christi faces the challenges of the future. There is a need to bring together all of our citizenry as we ponder the direction in which Corpus Christi is to go to establish goals and to implement programs to accomplish these goals.

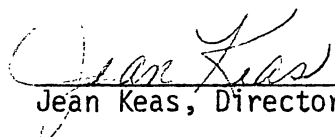

TOWN MEETING '76 is officially recognized by the American Revolution Bicentennial Administration as a part of the National Bicentennial Program in support of the "Call for Achievement". It is a locally sponsored one-day community forum. In a contemporary recasting of the traditional town meeting, two to four hundred people of all ages, persuasions and backgrounds spend a full day in a community "think tank" designed to identify the basic issues of the local community and the underlying challenges of America's third century. Using innovative problem solving methods, they can then propose practical steps toward meeting these challenges.

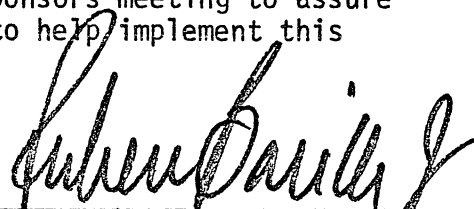

At a recent meeting, the date of April 10, 1976, was set for Corpus Christi Town Meeting '76. Please join us for the above scheduled sponsors meeting to assure that this event represents all of Corpus Christi, and to help implement this community event.....In the Spirit of '76,
