Dear Dr. Garcia:

I congratulate you upon the deserved honor and recognition accorded you by the Texas Senate. Perhaps you did not see the editorial carried in the Austin American-Statesman of last week.

I remember the days of long ago when you were a young doctor and I was a young lawyer in Austin right after World War II. I remember attending a program and dance on the Plaza Deck sponsored by the new organization, the G.I. Forum.

Apart from the rightness of your lifelong effort, I respect your perseverance. I often find people who are outraged by injustice, but soon get over it.

Perhaps also, it is not too late to say how much I have appreciated the times I enjoyed your support when it made a real difference.

May you continue to enjoy strength and health that preserve your everlasting zeal.

Sincerely,

Apart from the rightness of your lifelong effort, I respect your perserverance. I often find people who are outraged by injustice, but soon get over it.

Perhaps also, it is not too late to say how much I have appreciated the times I enjoyed your support when it made a real difference.

May you continue to enjoy strength and health that preserve your everlasting zeal.

Sincerely,
