Corpus Christi, Texas 78408

Dear Rene:

As I promised you at the meeting in Austin earlier this week, when we find out additional information about the Title X applications, it will be passed on to you.

I am happy to report that a total of \$24.3 million in Title X applications from Texas have been transmitted from Community Services Administration to the Department of Commerce for further processing.

Your project was included along with ours and transmitted. CSA rating was high enough on your project to get the following included: \$318,000, Winterization. We are glad to have had some part in the rating process.

This initial approval should be your green light to create full awareness of your proposal and to take the next steps in achieving final funding approval from Commerce for your project. I am also counting on you to provide all the support possible for the \$14.5 million in projects from TDCA, for these include additional jobs for your area.

I will stay in touch as new developments may occur.

Sincerely,

Michael Allen
