December 30, 1951.

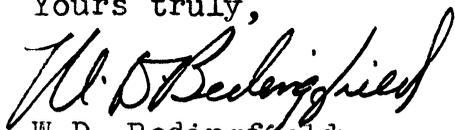

Dr H.P. Garcia
634 Ohio
Corpus Christi, Texas

Dear Doctor:

Some few Months ago when you added the new room to your home we did not increase our pest control service even tho it added new space that had to be sprayed, we find our self with a increase in operation expence and to make ends meet we must pass on a part of this to you. Effective for the year of 1952 the cost of pest control service for your home will be \$5.00 per Month.

It has been a pleasure to have been of service and we trust that you will continue our service and you may be assured that we will render the best service possible.

Yours truly,

W.D. Bedingfield
