Dear Dr. Garcia:

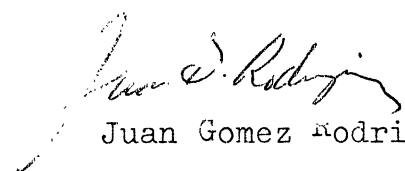

I am senior student majoring in a double field in accounting and sociology at Texas A & I University, Kingsville, Texas, and I am writing a research documentation on the assumption: "The Identity Crisis of the American of Mexican descent".

As you are a leader of nuestra gente, I would like your views and positions to this problem that confronts all of us, especially the young children who must decide whether to be "gringoized" or to accept in being proud of being a member of the Raza.

What specific solution(s) should be taken to combat this problem if you do agree that we, the Mexican-Americans, Latin-Americans, Spanish surnamed, Chicanos, or whatever other name, are indeed having an identity crisis.

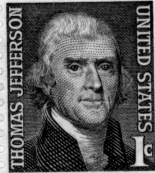

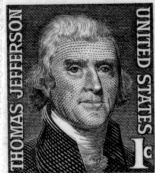

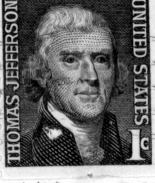

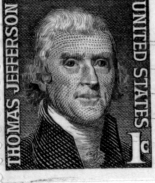

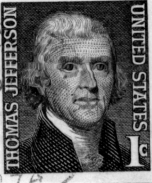

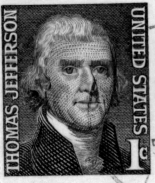

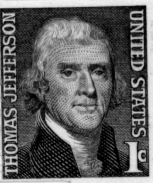

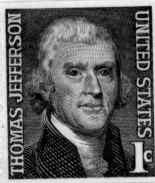

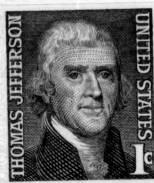

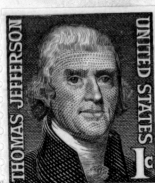

I will sincerely appreciate your time and your assistance and do hope you can continue en el mejoramiento de nuestra gente.

Su humilde servidor,

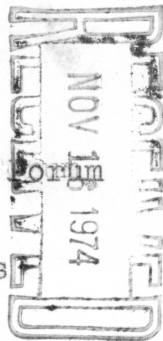

Juan Gomez Rodriguez
