

Mr. Lane

Thank you for the book order
which I have just shipped to you in
two separate boxes. There was no
outstanding bill on your previous order.

I have been quite ill with
a growth on my neck and the
Doctors & pathologists have been
unable to determine exactly
what it is. They are still making
cultures on two lipomies they
have made. They are giving me
medication for T.B. of the neck, and
say they see no evidence of cancer
however. They plan to make a third
biopsy in hopes of finding out
exactly what I have.

I have had some of lipomies
Borst removed, skin, blood,

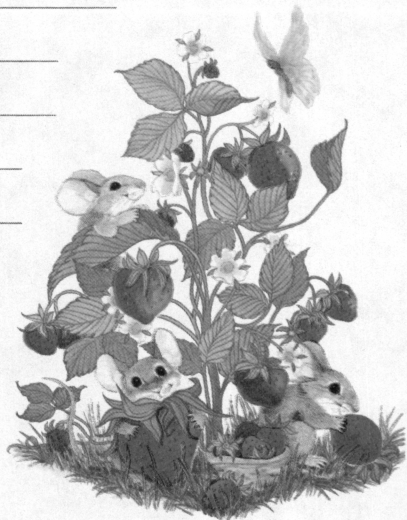

ET scan and everything is
normal, I have very good
similarity as its still hard
to explain the surface
mass in it. We had
a beautiful service at the homecoming.

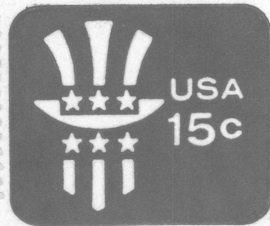

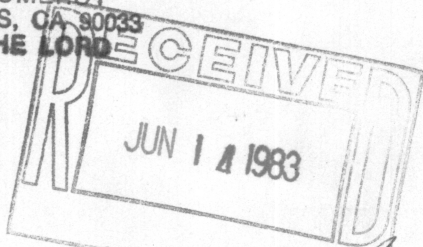

Saturday The 28th (Memorial Day Service)

Best Regards
Ramona Morini

P.S. the book is selling for \$8.00
or more.
