Carísimo Doctor,

Congratulations to you dear doctor, for your recent trip to the Island of Trinidad where you represented the President. The March issue of the News Bulletin which I have recently received carries the picture of member representatives at the Conference and you look so very handsome. How proud I am to know you.

Please forgive me for being so negligent in writing you. I did not mean that my change of address notice should be so puzzling to you. But yes, I did get married on the 18th of February to a fine gentleman from Baltimore, Md. Naturally, I resigned my

job with the military Assistance Advisory Group in Madrid. My husband, Warren, and I are now living in the Canary Islands where he is employed at the Project Mercury Tracking Station here on the Grand Canary Island. We expect to be here until sometime next year, but am hoping we return in time to attend the 1962 national convention. Doctor I just had to keep in step with Jimmie DeLoach and Bob Sanchez. Truly, I am very happy and know you are pleased.

With regard to organizing the Forum among military people in Spain, my attempts were futile. An Ambassadorial policy aiming to get members of the military force to refrain

from isolating themselves from the Spanish precluded any sole American groups from getting together. However, I tried and the result created verbal repercussions. The military simply is difficult to cope with. Too, the continual turnover of personnel is a handicap in itself. Since I worked directly with the Spanish personnel in their headquarters rather than at the American installation, the restrictions were even more prevalent. These and other factors simply made it impossible for me. Now that I have more time in which to serve the Forum I have no nucleus to work with as far as organizing is concerned.

It is most rewarding for me to read the news bulletins and see the grand achievements of the

Forum and the progress being made. I become nostalgic indeed and have dearly missed being a part of all the activity. I have missed attending the wonderful Conventions and do hope I can be at the 1962 National Convention— Please don't schedule it in Hawaii.

So convey my personal regards to the wonderful people in the Forum everywhere and my praises to them for their hard work, especially to El Bravo Bob Sanchez.

I am enclosing a wedding picture. If you wish, you may forward to Joe Alvarado for publication in the Bulletin.

Good luck and God Bless you.

Un abrazo fuerte con
mucho Cariño

Molly Galván Zaid
