Dear Dr. Garcia:

When I visited in your office on December 29, 1974 you were kind enough to give me several photos of yourself and others with President Kennedy and Lyndon Johnson. Most have to do with your work with the Federal Government or with the American G.I. Forum of the U.S. We discussed them, on tape, which was for verification and you helped me with a discription of each.

As we discussed at the time I need your signature granting me permission to publish them. I am suggesting the credit line: Hector P. Garcia, M.D., but should you desire another, please write it here.

DR HECTOR P GARCIA
FOUNDER
AMERICAN G I FORUM OF THE U.S.

Your signature here will grant me your permission, for future publication with the credit line stated above.

Date

As I will be contacting Senator Yarborough soon, may I give him any message from you? He appreciated your greeting which I conveyed to him the day after I visited you.

Hopefully this summer with your permission I can come back and photo copy all of your letters from the Kennedy's and Johnson's, making copies for each of us.

Many thanks.

Respectfully,

J.L. Pruett
