

May 1992

Dear Uncle Hector, and Aunt Wanda,

Both my children are fine. Camillea Consuela (22) continues at Univ. of Texas at San Antonio (UTSA). Pablo graduated from High School this month. I wanted you to enjoy his photograph. He plans a Master's Degree in the Environmental Sciences at Washington State Univ. We plan to effect a move in the near future to Washington State to be near my Brother Tony.

Let me know some news of the family. I look forward to hearing about my cousins.

Sincerely, Love

Tita García Simone
